Radio Beijing Goes On-Air with Harrison

Nashville, TN, April 2006: Radio Beijing recently ordered a Harrison Trion Air, Harrison's newest digital on-air broadcast console. The sale was made by Enigma in Beijing, Harrison's exclusive agent in China. The Trion will be installed in an OB Van and used for on-air broadcasting, daily program production, and live performances including the Beijing 2008 Summer Olympic Games.

Radio Beijing Corporation established in autumn of 2004 to provide up-to-the-minute news and information is the first English speaking radio station in China. Radio Beijing now offers more than 10 sets of on-air programs and a similar number of cable casting programs. Radio Beijing has established a strong relationship with well-established, respected broadcasters world wide including the BBC, Radio Australia, and Radio Canada International.

The broadcast Trion will feature Harrison's latest DSP, the X-Range. The X-Range is based on dual processor computers for DSP processing and IKIS control. The X-Range engine supports simultaneous control of DAW, I/O, audio tools (plug-ins), router, multi-channel monitoring, and digital channel processing.

The Trion surface features Harrison's wide-viewing angle TFTs displaying Harrison's unique channel strip display - a complete real-time visual representation of each channel's sound envelope and the audio parameters together with Harrison's patent applied for Preview with History Waveform.

Eddie Wang, Sales Manager for Enigma, commented on the recent order, "With the Harrison Trion, Radio Beijing will have the most advanced mobile studio of any Chinese Radio station. This is Enigma's first Harrison sale since being appointed as Harrison's agent in Korea last year. Harrison is very respected in China because of its reputation, features and quality. The Trion is not delivered yet, but we already have more sales under way. Harrison and Enigma will have a very good future together in the Chinese market."

Gary Thielman advanced product manager for Harrison noted: "All of at Harrison and at Enigma, our marketing partner in China, are excited that Radio Beijing chose a Harrison Trion. Radio Beijing's mobile van is state of the art. The Trion is a perfect fit. Harrison and Enigma are looking forward to a long relationship with Radio Beijing."

About Harrison

Based in Nashville, Tennessee, Harrison is a world leader in the design, manufacture and support of advance technology digital film dubbing consoles as well as professional audio mixing consoles for television broadcast, video post-production, and live sound applications. Harrison continues to expand the capabilities of contemporary digital console architecture and design.
